

April Leaveck, Psy.D.

**Licensed Psychologist
Clinical Psychologist**

Dr. Leaveck earned her doctorate from Central Michigan University in 1994, after completing an internship at Hahnemann University Hospital in Philadelphia. She has served as a staff psychologist and supervisor at Scott County Mental Health Center. Her current interests include pre-employment and fitness-for-duty evaluations for safety-sensitive positions.

Kiri A. Faul, Ph.D.

**Licensed Psychologist
Clinical Psychologist**

Dr. Faul earned her doctorate from University of North Dakota in 2006, after completing an APA-approved pre-doctoral internship at the St. Louis Psychology Internship Consortium. Subsequently, she completed a postdoctoral fellowship in clinical psychology at Metropolitan St. Louis Psychiatric Center. She has experience in psychological assessment in a variety of areas, including, vocational rehabilitation, parental competency, competency to stand trial, mental state at time of the offense, learning disability, and personality and cognitive evaluations. Her current interests include pre-employment evaluations for safety-sensitive positions, and disability examinations.

Philip Sarff, Ph.D.

**Licensed Psychologist
Clinical Psychologist**

Dr. Sarff graduated from Fuller Theological Seminary in Pasadena, California. He completed his internship in Clinical Psychology through the University of Minnesota Psychology Internship Consortium in 1991. His interests include clinical, neuropsychological, and public safety assessment.

Jay T. McNamara, Ph.D.

**Licensed Psychologist
Clinical Psychologist**

Dr. McNamara completed his Ph.D. in 1979 at the University of Missouri-St. Louis. Since completing his internship at the Veterans Administration Medical Center in Minneapolis, he has gained extensive experience in psychological assessment in a variety of areas including psychiatric disorders, vocational issues, pre-employment selection, and management assessment. He also has extensive experience in sports/performance psychology and competitive fishing, and has published a book on this subject.

**Forensic Psychology Services
Since 1988**

 **Gary L. Fischler & Associates, PA**
CONSULTING & FORENSIC PSYCHOLOGISTS

- Psychological Evaluation
- Expert Testimony
- Trial Consultation

Forensic Psychological Evaluations

Since 1988, Gary L. Fischler & Associates, PA, has provided forensic psychological evaluations to both defense and plaintiff attorneys. We have experience with a variety of legal issues, including:

- Personal injury
- Post-traumatic stress disorder
- Malingering and deception
- Discrimination and harassment
- Wrongful termination
- Negligent hiring and retention
- ADA accommodations
- Disability determination
- Violence assessment
- Civil commitment for involuntary treatment
- Competence to stand trial
- Criminal responsibility
- Testamentary capacity
- Parental competence
- Adoption
- Spousal maintenance
- Social Security Disability Determination
- Worker's Compensation

Our methods are objective, fair, and defensible. We begin with a review of available records, including medical and mental health treatment records, previous psychiatric and psychological evaluations, complaints, other legal records, and personnel records. We proceed with a psychological evaluation relying on objective and well-validated personality and cognitive tests, a thorough history obtained from the evaluatee, and a current mental status assessment. We provide oral and written reports as requested.

Expert Witness Testimony

Psychological characteristics, level and quality of motivation, personality traits, psychopathology, and historical behavioral patterns often have significant bearing on legal issues, and the outcome of a case may rest on the expert testimony regarding a litigant's psychological profile. Our reports are comprehensive, defensible, based on objective data, and able to withstand rigorous scrutiny in court. We will do whatever possible to answer the questions at issue, and to assist the trier of fact in coming to the most accurate conclusions.

Psychological Trial Consultation

We offer case preparation services to help defense and plaintiff attorneys working on cases with psychological or psychiatric issues. We can research the relevant professional literature to help develop specific direct and cross-examination strategies.

Our Staff

Gary L. Fischler, Ph.D.

Licensed Psychologist

**Diplomate, American Board of Psychological Specialties,
Forensic Clinical Psychology**

Diplomate, American Board of Professional Disability Consultants

Dr. Fischler received his doctorate in clinical psychology from the University of Minnesota in 1984. In addition to serving as a consultant and examiner to public safety agencies, he is a court-appointed psychological examiner, an adjunct assistant professor at the University of Minnesota, and an adjunct faculty at the Minnesota School of Professional Psychology. He is also past chair of the Ethics Committee of the Minnesota Psychological Association. He has authored a number of professional papers and coauthored a book related to the interface between mental health issues and vocational functioning.

We use defensible techniques and well-validated tests.
