

Philip Sarff, Ph.D.
Licensed Psychologist
Clinical Psychologist

Dr. Sarff graduated from Fuller Theological Seminary in Pasadena, California. He completed his internship in Clinical Psychology through the University of Minnesota Psychology Internship Consortium in 1991. His interests include clinical, neuropsychological, and public safety assessment.

Kiri A. Faul, Ph.D.
Licensed Psychologist
Clinical Psychologist

Dr. Faul earned her doctorate from University of North Dakota in 2006, after completing an APA-approved pre-doctoral internship at the St. Louis Psychology Internship Consortium. Subsequently, she completed a postdoctoral fellowship in clinical psychology at Metropolitan St. Louis Psychiatric Center. She has experience in psychological assessment in a variety of areas, including, vocational rehabilitation, parental competency, competency to stand trial, mental state at time of the offense, learning disability, and personality and cognitive evaluations. Her current interests include pre-employment evaluations for safety-sensitive positions, and disability examinations.

April Leaveck, Psy.D.
Licensed Psychologist
Clinical Psychologist

Dr. Leaveck earned her doctorate from Central Michigan University in 1994, after completing an internship at Hahnemann University Hospital in Philadelphia. She has served as a staff psychologist and supervisor at Scott County Mental Health Center. Her current interests include pre-employment and fitness-for-duty evaluations for safety-sensitive positions.

Jay T. McNamara, Ph.D.
Licensed Psychologist
Clinical Psychologist

Dr. McNamara completed his Ph.D. in 1979 at the University of Missouri-St. Louis. Since completing his internship at the Veterans Administration Medical Center in Minneapolis, he has gained extensive experience in psychological assessment in a variety of areas including psychiatric disorders, vocational issues, pre-employment selection, and management assessment. He also has extensive experience in sports/performance psychology and competitive fishing, and has published a book on this subject.

Ensure that your clients have the best chance for success.

Gary L. Fischler & Associates, PA

CONSULTING & FORENSIC PSYCHOLOGISTS

Specializing in the psychological evaluation of employability

As a rehabilitation professional, you want to ensure that your clients have the best chance for success. But knowing the best path to vocational rehabilitation may be difficult without a comprehensive understanding of your client's abilities and personality characteristics.

Most mental health professionals can provide a psychiatric diagnosis; however, we help you move beyond psychiatric jargon to practical rehabilitation strategies by focusing on functional strengths and limitations. Since 1987 we have examined thousands rehabilitation and disability determination clients using validated assessment techniques that can help guide your rehabilitation approach.

Assessment procedures focused on your client's issues and needs:

- Mental Illness & Chemical Dependency
- Neuropsychological Impairments
- Learning Disabilities
- Developmental Disabilities
- Personality Disorders
- Chronic Pain & Illness
- Attention Deficit Hyperactivity Disorders (ADHD)

In addition to psychiatric diagnosis, we can provide information about your client's functional strengths and limitations:

- General intelligence and intelligence profile
- Memory & concentration skills
- Academic ability
- Decision-making skills
- Ability to tolerate stress and pressure
- Work pace and persistence
- Capacity to work in a team environment and accept Supervision
- Tendency to act dependably, responsibly, and with integrity
- Ability to work independently
- Potential accommodation strategies

Our Staff

Gary L. Fischler, Ph.D.

Licensed Psychologist

**Diplomate, American Board of Psychological Specialties,
Forensic Clinical Psychology**

Diplomate, American Board of Professional Disability Consultants

Dr. Fischler received his doctorate in clinical psychology from the University of Minnesota in 1984. In addition to serving as a consultant and examiner to public safety agencies, he is a court-appointed psychological examiner, an adjunct assistant professor at the University of Minnesota, and an adjunct faculty at the Minnesota School of Professional Psychology. He is also past chair of the Ethics Committee of the Minnesota Psychological Association. He has authored a number of professional papers and coauthored a book related to the interface between mental health issues and vocational functioning.

We use defensible techniques and well-validated tests.
